About This Game

Island Town is a one man made project that was created as a learning experience for game development, this is a game/demo with few things to enjoy. The game is a third person shooter zombie survival with aspects from many other genres including survival, sandbox, open world and few others. The game features 4 weapons, 6 cars, 3 dimensions of the same map, two dimensions with over 200 zombies throughout the map, and one daytime dimension with no zombies to explore. The game has many places to visit and interact, for example the gun store offers ammo to buy for your weapons, the hospital offers health and powers to run fast and jump extremely high. Please enjoy the game and leave a review on things to improve.

Island Town
Franchise:
Island Town
Release Date: 26 Apr, 2019

b4d347fde0

Minimum:

OS: Windows

Processor: I5 Dual Core Processor

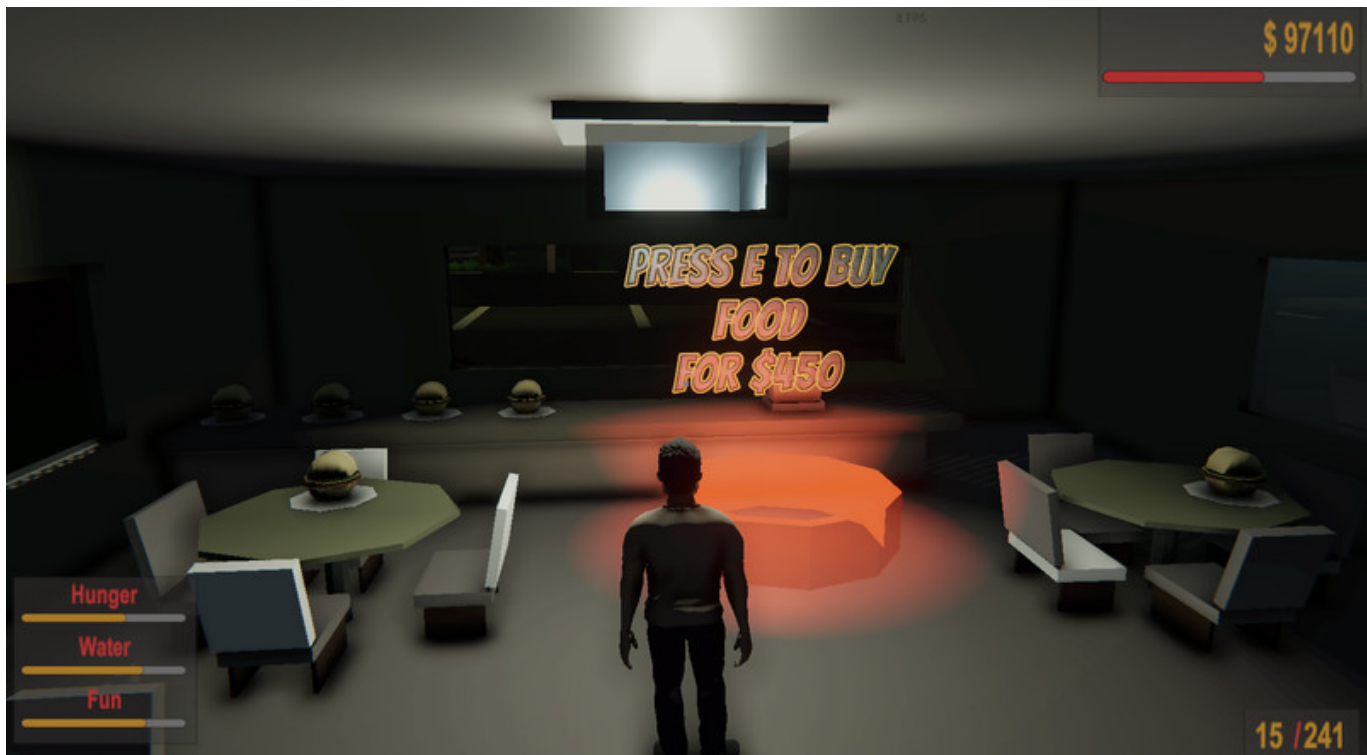

Memory: 4 GB RAM

Graphics: NVIDIA GeForce GTX 850M

Storage: 2 GB available space

English

Released Input:

Hello everyone,

I am the developer of the game, the game is finally out on steam after a lot of time and work. The game is far from perfect and has many bugs. I understand this might bring some negativity into the ratings of the game but its fine, I want to hear the input from the players in order to correct my mistakes, with that said feel free to comment any input I will see them all, I love all of you regardless of your comment, thanks,

The developer :)
